

# Competence Center

The myDatagnet Competence Centers are authorised measurement technology specialists and Partner companies, that received specialised training about myDatagnet and that offer a high quality standard. This includes the regular visit of further training courses, which help them to be on the current state of development about new products and techniques.

## myDatagnet Competence centers guarantee:

- Specialists in the various categories
- Good support by trained personnel
- System and technology up to date
- myDatagnet server hosting

The Competence Center conditions consist of the following parts:

## Training Certificate:

With the „MDN-Operator“ certificate from Module 1 and the „MDN Administrator“ certificate from Module 2 the myDatagnet certified badge is awarded.
