

Hydrology Monitoring

Hydrology Monitoring

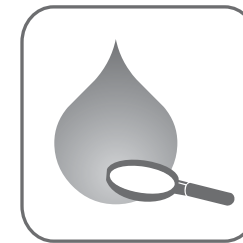

Sensor systems:

- ▶ Multi-parameter probes
- ▶ Samplers
- ▶ configurable Rs232 interface for further applications

Monitoring of hydrological parameters and water quality

Instrument Type	Battery/ Accumulator	Solar	Power Supply	Calculated Channels	Temp. Sensor	I/O Interfaces
myDatalog232 YSI	●			●		
myDatalogPH WTW	●			●		
myDatalogMINI 232		●	●	●	●	●

The battery lifetime depends on the sensor system.

Example at a measuring and transmission interval of 60 minutes:

- myDatalog232 YSI - up to 6 months
- myDatalogPH WTW - up to 6 months

- **battery-powered instruments**
 - myDatalog232
 - myDatalogPH
- **power supplied instruments**
 - myDatalogMINI232
