

myDataSIM

The SIM card is preconfigured, tested and delivered integrated in the instrument. All you need to do is switch-on the measurement instrument and you can immediately start collecting data.

The data volume is calculated from measurement and transmission intervals. As a rule the intervals are adapted to your requirements taking the respective operator fees into consideration.

The myDataSIM base-fee amounts to 2 Euros per month.

One-time fee for activating: 25 Euros

For every change in tariff: 25 Euros

The data volume is calculated at your requirements. Please find the consumption fees per month in the table below.

	XS (1MB)	S (2MB)	M (3MB)	L (4MB)	XL (5MB)
AT					€4,50
EU/US	€5,20	€8,70	€12,69	€16,72	€20,75
GLOBAL	tariff on demand				

A minimum of 50 SIM-cards must be purchased, base-fee and data volume are invoiced 12 months in advance. Minimum term of 24 months.
